SCHOOL OF CHEMISTRY - SAMPLE SECOND YEAR TIMETABLE

Activity Key: Labs | Lectures | Workshops | Tutorials | Independent/self study

SEMESTER ONE

	MONDAY	TUESDAY	WEDNESDAY	THURSDAY	FRIDAY
9.00 – 10.00					
10.00 - 11.00	**CHEM20711** Contemporary Themes in Chemistry *This chemistry course can be taken as an option on most degree programmes*	**CHEM 22600** **Year 2 Labs** (10 - 4pm) Labs in year 2 take place across 1 ½ days, and in a similar format to year 1, the year is split into two groups, taking a 6 week Synthesis and Measurement lab in each semester	**CHEM22600** **Year 2 Labs** **(10 - 1pm)**	**CHEM20311** **Group Theory** Lecture	**CHEM20611** Molecular Spectroscopy and Mass Spectrometry Lecture
11.00 - 12.00	**CHEM20411** **Organic Synthesis** Lecture			**CHEM20411** **Organic Synthesis** Lecture	**CHEM20311** **Group Theory** Workshop
12.00 - 1.00	**CHEM20611** Molecular Spectroscopy and Mass Spectrometry Lecture				**CHEM20711** Contemporary Themes in Chemistry *or alternative subsidiary option*
1.00 - 2.00	**YEAR 2 PASS**			**CHEM20500** **Transferable Skills for Chemists** Lecture and workshop activities continue in year 2	
2.00 - 3.00					**Tutorials** Where possible remaining in the same tutorial group as year 1, tutorials continue on a weekly rotation of Organic, Inorganic, Physical, in order to support the compulsory, or 'core' courses
3.00 - 4.00					
4.00 - 5.00

Activity Key: Labs | Lectures | Workshops | Tutorials | Independent/self study

SEMESTER TWO

	MONDAY	TUESDAY	WEDNESDAY	THURSDAY	FRIDAY
9.00 – 10.00	**CHEM20412** **Structure and Reactivity of Organic Molecules** Lecture				**CHEM20212** **Core Physical Chemistry** Lecture
10.00 - 11.00		**CHEM 22600** **Year 2 Labs** (10 - 4pm) Labs in year 2 take place across 1 ½ days, and in a similar format to year 1, the year is split into two groups, taking a 6 week Synthesis and Measurement lab in each semester	**CHEM22600** **Year 2 Labs** **(10 - 1pm)**	**Tutorials** Where possible remaining in the same tutorial group as year 1, tutorials continue on a weekly rotation of Organic, Inorganic, Physical, in order to support the compulsory, or 'core' courses	**CHEM20312** **Inorganic Chemistry** Lecture
11.00 - 12.00	**CHEM20712** **Environmental and Green Chemistry** Lecture *This chemistry course can be taken as an option on most degree programmes*			**CHEM20712** **Environmental and Green Chemistry** Lecture *This chemistry course can be taken as an option on most degree programmes*	
12.00 - 1.00	**CHEM20212** **Core Physical Chemistry** Lecture				**CHEM20412** **Structure and Reactivity of Organic Molecules** Lecture
1.00 - 2.00	**CHEM20312** **Inorganic Chemistry** Lecture			**CHEM20500** **Transferable Skills for Chemists**	
2.00 - 3.00	**YEAR 2 PASS**				
3.00 - 4.00					
4.00 - 5.00
